ATR VERDICT: HARD FOREST was well supported in the market prior to her debut and the daughter of Hard Spun was less than a length behind the winner on that occasion. She is the only one in this race with experience and that could prove to be vital, especially as she is clearly talented. Mick Channon has made a great start to the season with his juveniles and that means that Chynna and Cotubanama both have to be respected. Although, the newcomer that stands out is Strings Of Life, who represents a yard who had a great record with their two-year-olds first time out last season. The daughter of first-season sire Slade Power is a half-sister to a 6f winner and her family traces back to the likes of Sleepytime and Ali-Royal. Red Hut Red was a 60,000gns yearling and she is closely related to last year's Britannia winner Bless Him, while any market support for Ginger Nut would also have to be noted.

Top Tip: HARD FOREST (4)

Watch out for: STRINGS OF LIFE (7)
